Appendix 4E  
For the year ended 30 June 2017**

**Preliminary Final Report**

This preliminary final report is for the financial year ended 30 June 2017. All comparatives are for the year ended 30 June 2016.

<b>Results for announcement to the market</b>	<b>30 June 2017</b>	<b>30 June 2016</b>	<b>Movement up/ (down)</b>	<b>Movement up/ (down)</b>

**Performance**

The last 12 months were generally good to investors in Australian Equities with the ASX 300 (the benchmark used to measure performance in Wealth Defender Equities) up 13.8%. The equity portfolio has performed equally well, rising by 15% for the year. Importantly, at all times, the portfolio was protected in the event of a significant sharp fall in markets.

This resulted in WDE reporting comprehensive income after tax of \$7.6m for the year compared to a \$5.4m loss last year. This was primarily due to substantial growth in the valuation of the equity portfolio in addition to strong (albeit slightly down on 2016) dividend receipts from our underlying equity holdings.

Over the year the movement in Net Tangible Asset value per share (NTA) (before tax) with dividend reinvested was 9.24%.

However, at an operating level the Company recorded an operating loss of \$178,900 which was down on the prior year operating profit of \$1.8m. This can be largely attributed to the substantially higher than anticipated cost of holding protection over the past year.

**Net tangible assets**

Net Tangible Assets per Share of \$0.95 (after tax) is up 4.36% from the reported 30 June 2016 disclosure of \$0.91.

	<b>30 June 2017</b>	<b>30 June 2016</b>
	<b>\$</b>	<b>\$</b>
Net tangible asset backing (per share) before tax	0.920	0.861
Net tangible asset backing (per share) after tax	0.950	0.910

**Dividends**

A fully-franked (franked at 27.5%) final dividend for the year ended 30 June 2016 of 2.0 cents per share was paid on 30 September 2016.

Subsequent to year end, the Company declared a fully franked dividend (franked at 27.5%) of 1.0 cent per share to be paid on 29 September 2017. Total dividend paid for the year ended 30 June 2017 is 1.0 cent per share.

**Dividend Reinvestment Plan**

The Directors of the Company also announced that the Company's Dividend Reinvestment Plan ("DRP") will apply to the payment of the final dividend. The subscription price for shares issued under the DRP will be determined on the volume weighted average market price at which the shares are traded on the 5 business days up to and including 18 September 2017 and will include a 2.5 percent discount. All existing and new shareholders who are on the Company's register at the record date of Tuesday 12 September 2017 are eligible to participate in the DRP.

## **Outlook**

The focus will continue to be on identifying and investing in quality companies, with sound business practices, underpinned by strong balance sheets which are offering attractive valuations and have the ability to deliver high levels of franked dividend income to investors.

Furthermore, as the manager Perennial Value is always looking to enhance their process, during the financial year they increased both the concentration in the equity portfolio and the allocation to the small caps component of the portfolio.

Although the dynamic hedging strategy to manage downside risk has been in place and working as it was designed, the cost of the hedging strategy at 4% for the last year exceeded target due to the substantially higher than anticipated cost of holding protection. The focus remains to manage the strategy to deliver a cost of insurance in the range 1 – 2% over the cycle.

## **Expiry of Loyalty Options (ASX WDEO)**

115,891,962 of the Company's listed options, exercisable at \$1.00 on or before 23 November 2016 have expired unexercised. A total of 16,500 listed options have been exercised since the options vested on 23 November 2015.

## **Audit**

This report is based on the financial report which has been audited. All the documents comprise the information required by Listing Rule 4.3A.

## **Chairman's Letter**

Dear Shareholders

The 12 months to 30 June 2017 were generally good to investors in Australian Equities, with the ASX 300 Accumulation Index (the benchmark we use to measure our performance in Wealth Defender Equities ("the Company")) up 13.8%. Our underlying equities portfolio exceeded this return, rising by 15.0% for the year. While the cost of protecting the portfolio over the year was higher than expected, the overall portfolio still delivered a respectable gross return of 11.0%. Importantly, at all times, the portfolio was protected in the event of a significant sharp fall in markets.

This resulted in the Company reporting comprehensive income after tax of \$7.6m for the year, compared to a \$5.4m loss last year. This was primarily due to substantial growth in the valuation of our equity portfolio, in addition to strong (albeit slightly down on 2016) dividend receipts from our underlying equity holdings. However, at the operating level, the Company recorded a loss of \$178,900, which was down on the prior year profit of \$1.8m. This can be largely attributed to the substantially higher than anticipated cost of holding protection over the financial year.

The Company was formed with three major objectives for shareholders in mind, namely providing:

1. Exposure to an Australian shares portfolio managed by Perennial Value Management Limited. Perennial Value has a long history of managing such portfolios using their value style to outperform the market benchmark over a full market cycle.
2. A dynamic hedging strategy (known as the "airbag") designed to cushion the portfolio against sudden and significant falls in the market, at a long-run cost of 1-2% per annum. This is not meant to prevent all losses in such a scenario, but rather ensure that Wealth Defender's losses would be less than the market, with investors better able to cope with a significant market retreat.
3. A regular and growing stream of franked dividends consistent with those available from the general market.

During the 2017 financial year, the Company struggled to deliver on 2 of these 3 objectives.

Specifically:

1. The underlying shares portfolio outperformed the market. The performance was significantly better than in the previous year and ahead of our benchmark, with a gross return of 15% versus the benchmark return of 13.8%.
2. The "airbag" was in place and working as it was designed. However, the cost of the hedging strategy, at 4% for the last year, exceeded target.
3. The dividend stream in this financial year was below expectations. While the underlying shares portfolio delivered substantial franked dividends to the company, the cost of the "airbag" impacted our profit and loss and resulted in the dividend paid being lower than in the past financial year.

**Chairman's Letter (continued)**

The natural response to these outcomes is to ask "What can be done to remedy the situation?" The Board is acutely aware of the need to avoid, if at all possible, a repeat of the past year's outcome. Our evaluations have indicated the following:

1. The performance of the stock portfolio was in line with expectations. As with different styles of investing, the value style can have periods of underperformance and outperformance, and what we experienced was consistent with past similar episodes.

In the last year, Perennial Value ("the manager") outperformed the benchmark on a gross basis, which was a good result. Furthermore, as the manager is always looking to enhance their process, during the financial year they increased both the concentration in the equity portfolio and the allocation to the small caps component of the portfolio.

2. The performance of the protection portfolio was however atypical. We modelled the dynamic strategy over numerous time periods and the most recent period with the high costs we experienced do seem well away from the "norm", in particular, the large spike in costs in the early part of the financial year. In line with the strategy, we continue to believe that it is possible to manage the strategy to deliver a cost of insurance in the range of 1 – 2% over the cycle.

In addition, we were in a period of high implied volatility (the basis for the cost of protection) relative to realised volatility (the volatility that actually occurred). Our protection strategy will work much better when the reverse is true – when implied volatility is low (making the cost of insurance low) with realised volatility high (making it possible to extract some value from the protection portfolio that looks to offset some of its cost). This has been the case more recently, with the cost of protection falling significantly in the second half of the financial year.

3. With respect to future dividends, we expect if our cost of insurance analysis proves correct, then our protection costs will fall, leaving more profit to distribute.

Fellow investors, your Directors are dissatisfied with the past year's performance. However, I hope we have been able to explain, in some part, why this was the case, what we are doing to address some of the fundamental issues, and why we have confidence moving into a new financial year.

As a final point, it is important to remind ourselves of the intended long term nature of an investment in this vehicle. The underlying equities portfolio is managed in a value style which typically takes a longer term view, looking for stocks to outperform over a 2 - 3 year period as the basis of generating outperformance. Similarly, while the cost of the hedging strategy may vary from year to year, the aim is to smooth returns over the cycle, and represents a unique strategy in the listed investment company universe. Markets have been rising steadily for several years and conditions have been generally benign. However, when inevitable significant corrections occur, we would expect the protection will serve investors well.

Thank you for your patience and forbearance.

**Corporate Governance Statement**

The Company is committed to implementing the highest standards of corporate governance for a company of its size and standing, in line with the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (3rd Edition) (**the Recommendations**).

The Board considers that, due to the size and stage of development of the Company and its operations, it is not practicable or necessary to implement the Recommendations in their entirety. In such instances, the Company has identified areas of divergence, or alternative practices adopted.

The Board has established a series of policies and charters in line with the Recommendations. The Company's Policies and Charters together form the basis of the Company's governance framework.

In accordance with the Recommendations, the Company has made its 2017 Corporate Governance Statement, together with its corporate governance policies and charters publicly available on its website: [www.wealthdefenderequities.com.au](http://www.wealthdefenderequities.com.au) under 'Corporate Governance'

**Wealth Defender Equities Limited**  
**Directors' Report**  
**For the year ended 30 June 2017**

**Directors' Report**

The Directors present their report together with the financial report of Wealth Defender Equities Limited ("the Company") for the year ended 30 June 2017.

**Directors**

The following persons held office as Directors of the Company during the financial year:

Alan Schoenheimer	Chairman & Non-Executive Director – appointed 27 January 2015
Paul Clitheroe	Non-Executive Director – appointed 27 January 2015
Richard Morath	Non-Executive Director – appointed 27 January 2015
Anthony Patterson	Executive of the Manager and Director – appointed 24 October 2014
John Murray	Executive of the Manager and Director – appointed 24 October 2014

Directors have been in office since the start of the financial year to the date of this report.

**Principal activities**

During the year, the principal activities of the Company included making investments mainly in listed large, mid and small cap Australian companies.

No change in this activity is anticipated in the future.

**Review of operations**

The Company's investment strategy is to actively manage allocations between equities, derivatives and cash throughout market cycles with the aim of enhancing the long term performance outcomes by maximising returns when markets rally and cushioning the magnitude of significant losses when markets fall.

The Company's investment portfolio comprises mainly equities in listed large, mid and small cap Australian companies, with the remainder in cash and derivatives.

Investment operations over the year ended 30 June 2017 resulted in a comprehensive profit, net of tax of \$7,609,275 (2016: loss of \$5,424,490) and an operating loss after tax of \$178,943 (2016: profit of \$1,655,758).

During the year ended 30 June 2017, 14,000 ordinary shares of the Company were issued on the exercise of options. 115,891,962 of the Company's listed options, exercisable at \$1.00 on or before 23 November 2016 have expired unexercised. A total of 16,500 listed options were exercised since the options vested on 23 November 2015.

At the date of this report, there were no unissued ordinary shares of the Company under option.

**NTA performance**

Over the year the movement in Net Asset value per share (before tax) with dividend reinvested was 9.24% against the Company's Benchmark the ASX 300 Accumulation index which had a return of 13.8% on a gross basis for the 12 months. Note that NTA performance is after deducting all fees and charges of running the company, whereas the Benchmark is gross of any fees hurdle. The Directors however still believe that the movement in pre-tax NTA (adjusted for dividends) is the most appropriate benchmark by which shareholders should gauge the performance of the Company.

The net tangible asset backing for each ordinary share at 30 June 2017 amounted to \$0.92 per share before tax (2016: \$0.86 per share).

The net tangible asset backing for each ordinary share at 30 June 2017 amounted to \$0.95 per share after tax (2016: \$0.91 per share).

**Dividends**

A fully-franked (franked at 27.5%) final dividend of 2.0 cents per share was paid on 30 September 2016. Option holders who elected to exercise all or part of their options by the close of business on 2 September 2016 were entitled to receive the fully-franked dividend.

The Directors of the Company announced that the Company's Dividend Reinvestment Plan ("DRP") applied to the payment of the dividend. The subscription price for shares issued under the DRP was determined on the volume weighted average market price at which the shares were traded on the 5 days up to and including, 19 September 2016 and included a 2.5 percent discount. All existing and new shareholders who were on the Company's register at the record date of 12 September 2016 were eligible to participate in the DRP.

**Wealth Defender Equities Limited**  
**Directors' Report**  
**For the year ended 30 June 2017 (continued)**

**Matters subsequent to the end of the financial year**

Subsequent to year-end, the Company declared a final fully-franked (franked at 27.5%) dividend of 1.0 cent per share to be paid on Friday, 29 September 2017.

Apart from the dividends declared subsequent to year-end, no other matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

**Likely developments and expected results of operations**

The Company will continue to pursue its investment objectives for the long term benefit of the members. This will require continual review of the investment strategies that are currently in place and may require changes to these strategies to maximise returns.

**Environmental regulation**

The Company is not affected by any significant environmental regulation in respect of its operations.

To the extent that any environmental regulations may have an incidental impact on the Company's operations, the Directors of the Company are not aware of any breach by the Company of those regulations.

The Company has no employees other than Executive and Non-Executive Directors and therefore does not have a remuneration policy for employees.

The Directors are the only people considered to be key management personnel of the Company.

The Company outsources the company secretarial function to Company Matters Pty Limited.

**Director Related Entity Remuneration**

All transactions with related entities were made on normal commercial terms and conditions.

Anthony Patterson and John Murray are both Directors of Perennial Value Management Limited ("Perennial Value"), the entity appointed to manage the investment portfolio of the Company.

Perennial Value, in its capacity as manager, earned management fees amounting to \$1,138,922 (inclusive of GST but net of reduced input tax credit) for the year (2016: \$1,133,198).

The management fee is calculated at 0.98% p.a. (plus GST) of the first \$250 million of the net asset value of the portfolio and 0.8%p.a. thereafter.

As at 30 June 2017, the balance payable to the manager was \$95,600 (2016: \$114,499) (including GST).

In addition, Perennial Value is to be paid, annually in arrears, a performance fee of 15% (exclusive of GST) of the portfolio's outperformance of the benchmark over the performance calculation period. Full details of the terms of the performance fee calculation are disclosed in Note 21 to the financial statements.

There was no performance fee earned by the Manager during the year ended 30 June 2017 (2016: \$nil).

No Director has received or become entitled to receive a benefit (other than those detailed above) by reason of a contract made by the Company or a related Company with the Director or with a firm of which he is a member or with a Company in which he has substantial financial interest.

**Remuneration of Executives**

There are no executives paid by the Company. Anthony Patterson and John Murray are both considered Executive Directors on the basis that they are Directors of Perennial Value Management Limited and due to their role as investment managers in that entity, are integrally involved in the operations of the Company.

\*\* held through indirect interests

Directors and Director related entities acquired options in the Company on the same terms and conditions available to other shareholders.

The Directors have not, during or since the end of the financial year, been granted options over unissued shares or interests in shares of the Company as part of their remuneration.

**End of remuneration report**

**Wealth Defender Equities Limited**  
**Directors' Report**  
**For the year ended 30 June 2017 (continued)**

**Insurance and indemnification of officers and auditors**

During the financial year, the Company has given indemnity or entered into an agreement to indemnify, or paid or agreed to pay insurance premiums.

The Company has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Company, other than conduct involving a wilful breach of duty in relation to the Company or the improper use by the Directors of their position.

Details of the amount of the premium paid in respect of the insurance policies are not disclosed.

**Proceedings on behalf of the Company**

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

**Non-audit services**

The Board of Directors, in accordance with advice from the Audit & Risk Committee, is satisfied that the provision of non-audit services during the period is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the services disclosed in Note 19 did not compromise the external auditor's independence for the following reasons:

- all non-audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*.

**Rounding of amounts to nearest dollars**

In accordance with ASIC Corporations (rounding in Directors' Reports) Instrument 2016/191, the amounts in the Directors' Report have been rounded to the nearest dollar.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 13.

This report is made in accordance with a resolution of Directors.

**Auditor's Independence Declaration**  
**To the Directors of Wealth Defender Equities Limited**  
**ABN 15 602 517 528**

In relation to the independent audit for the year ended 30 June 2017, to the best of my knowledge and belief there have been:

- (i) no contraventions of the auditor independence requirements of the *Corporations Act 2001*; and
- (ii) no contraventions of any applicable code of professional conduct.

This declaration is in respect of Wealth Defender Equities Limited.

## **1 General information**

Wealth Defender Equities Limited (the "Company") is a listed public company domiciled in Australia. The address of Wealth Defender Equities Limited registered office is C/- Perennial Value Management Limited, Level 27, 88 Phillip Street, Sydney. The Company is primarily involved in making investments, and deriving revenue and investment income from listed securities in Australia.

## **2 Significant accounting policies**

The principal accounting policies adopted in the preparation of these financial statements are set out below. The financial statements are for the entity Wealth Defender Equities Limited.

### **(a) Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and interpretations issued by the Australian Accounting Standards Board and the Corporations Act 2001. Wealth Defender Equities Limited is a for-profit entity for the purpose of preparing the financial statements.

The financial statements were authorised for issue by the Board of Directors on 24 August 2017.

In accordance with ASIC Corporations (rounding in Directors' Reports) Instrument 2016/191, the amounts in the Directors' Report and the financial report have been rounded to the nearest dollar.

#### *(i) Compliance with IFRS*

The financial statements of the Company also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

#### *(ii) New and amended standards adopted by the Company*

The Company adopted *AASB 9 Financial Instruments Standard* which applies to annual reporting periods beginning from 1 January 2018 for the reporting period commencing 21 May 2015. *AASB 9 Financial Instruments* addresses the classification, measurement and derecognition of financial assets and financial liabilities. This Standard simplifies the classification of financial assets and allows for recognition of gains and losses on investments in long-term equity instruments that are not held for trading in other comprehensive income.

No other new accounting standards and interpretations that are available for early adoption but not yet adopted at 30 June 2017, will result in any material change in relation to the financial statements of the Company.

#### *(iii) Historical cost convention*

These financial statements have been prepared under the accruals basis and are based on historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss.

#### *(iv) Critical accounting estimates*

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

### **(b) Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of rebates and amounts collected on behalf of third parties.

#### *(i) Investment income*

The realised gains or losses on disposal of investments are recognised at the date of the transaction. Unrealised gains or losses of the financial assets held for trading is recognised on the Statement of Profit or Loss and unrealised gains or losses of long-term equity investments is recognised as other comprehensive income and taken to the Asset Revaluation Reserve on the Statement of Financial Position.

#### *(ii) Dividends*

Dividends are recognised as revenue when the right to receive payment is established.

#### *(iii) Interest income*

Interest income is recognised as it accrues, taking into account the effective yield on the financial asset.

**Wealth Defender Equities Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2017 (continued)**

**2 Significant accounting policies (continued)**

**(b) Revenue recognition (continued)**

*(iv) Derivative instruments*

Derivative instruments are measured at fair value. Gains and losses arising from changes in fair value are taken to the Statement of Profit or Loss.

**(c) Income tax**

The income tax expense/ (benefit) for the year comprises current income tax expense/ (benefit) and deferred tax expense/ (benefit).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities/ (assets) are measured at the amounts expected to be paid to/ (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well as unused tax losses.

Current and deferred income tax expense/ (benefit) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

**(d) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(e) Trade and other receivables**

Receivables may include amounts for dividends, interest and securities sold where settlement has not yet occurred. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables. Dividends are accrued when the right to receive payment is established.

Sale of securities that are unsettled at reporting date is normally settled within three business date of the trade date.

**(f) Financial assets and liabilities**

***Classification and Measurement***

*(i) Financial assets held at fair value through profit or loss (financial instruments held for trading)*

Financial assets held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset. Transaction costs on financial assets at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Profit or Loss.

Derivative financial instruments such as options and forward contracts are included under this classification. The Company does not designate any derivatives as hedges in a hedging relationship.

**Wealth Defender Equities Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2017 (continued)**

**2 Significant accounting policies (continued)**

**(f) Financial assets and liabilities (continued)**

***Classification and Measurement (continued)***

***(ii) Long term equity investments***

Long-term equity investments are recognised initially at cost and the Company elects to present subsequent changes in the fair value of the investments in the Statement of Other Comprehensive Income. Changes in the fair value of long term equity investments will never be reclassified to the profit and loss.

Long term equity investments comprise holdings in marketable equity securities which are intended to be held for the long term.

***Recognition and Derecognition***

Financial assets and liabilities at fair value through profit or loss and long-term equity investments are recognised initially on the trade date at which the Company becomes party to the contractual provisions of the instrument. Other financial assets are recognised on the date they originated.

Investments are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

***Determination of Fair Value***

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

The Company's accounting policy on fair value measurements is discussed in Note 4.

Under AASB 13, if an investment has a bid price and an ask price, the price within the bid-ask spread that is more representative of fair value in the circumstances shall be used to measure fair value. Accordingly, the Company uses the last sale price as a basis of measuring fair value.

**(g) Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the reporting date which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

Purchases of securities and investments that are unsettled at the reporting date are included in payables and are normally settled within three business days of trade date.

**(h) Finance costs**

Finance costs are recognised as expenses in the period in which they are incurred using the effective interest rate method.

**(i) Issued capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**(j) Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

In accordance with the *Corporations Act 2001*, the Company may pay a dividend where the Company's assets exceed its liabilities, the payment of the dividend is fair and reasonable to the Company's shareholders as a whole and the payment of the dividend does not materially prejudice the Company's ability to pay its creditors.

**Wealth Defender Equities Limited**  
**Notes to the Financial Statements**  
**For the year ended 30 June 2017 (continued)**

**2 Significant accounting policies (continued)**

**(k) Profits reserve**

The profits reserve is made up of amounts transferred from current and retained earnings that are preserved for future dividend payments.

**(l) Earnings per share**

*(i) Basic earnings per share*

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the period and excluding treasury shares.

*(ii) Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

**(m) Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Where applicable, the Company qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 75%; hence fees for these services have been recognised in the Statement of Comprehensive Income net of the amount of GST recoverable from the taxation authority.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

**(n) Functional and presentation currency**

The functional and presentation currency of the Company is Australian dollars.

**3 Financial risk management**

The Company's financial instruments consist mainly of shares listed on the Australian stock exchange and derivatives. Other financial instruments include deposits with banks, accounts receivable and payable.

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Board of the Company has implemented a risk management framework to mitigate these risks.

**(a) Market risk**

The standard defines this as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

*(i) Foreign exchange risk*

The Company is not materially exposed to currency risk as majority of its investments are quoted in Australian dollars.

*(ii) Price risk*

The Company is exposed to equity securities price risk. Price risk is the risk that fair value of equities decreases as a result of changes in market prices, whether those changes are caused by factors specific to the individual stock or factors affecting the broader market. Price risk exposure arises from the Company's investment portfolio.

The Company seeks to manage and constrain market risk by diversification of the investment portfolio across multiple stocks and industry sectors. The portfolio is maintained by the Investment Manager within a range of parameters governing the levels of acceptable exposure to stocks and industry sectors. The relative weightings of the individual securities and relevant market sectors are reviewed normally weekly and risk can be managed by reducing exposure where necessary.

*(iii) Cash flow and fair value interest rate risk*

The Company's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

The table below summarises the Company's exposure to interest rate risks. It includes the Company's assets and liabilities at fair values, categorised by the earlier of contractual repricing or maturity dates.

**(b) Credit risk**

With respect to credit risk arising from the financial assets of the Company, the Company's exposure to credit risk arises from default of the counterparty, typically brokers, with the current exposure equal to the fair value of these investments as disclosed in the Statement of Financial Position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but represents the current maximum exposure at the reporting date.

Other credit risk arises from cash and cash equivalents, and deposits with banks and other financial institutions.

The Company held no collateral as security or any other credit enhancements.

**Management of the risk**

The risk was managed as follows:

- Cash is only invested with highly rated international financial institutions in Australia; and
- Receivable balances are monitored on an ongoing basis and the Company has no debts past due or impaired.

**(c) Liquidity risk**

The standard defines this as the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Investment Manager monitors its cash-flow requirements daily in relation to the investing account taking into account upcoming dividends, tax payments and investing activity.

The Company's inward cash flows depend upon the level of dividend and distribution revenue received. Should these decrease by a material amount, the Company would amend its outward cash flows accordingly. As the Company's major cash outflows are the purchase of securities and dividends paid to shareholders, the level of both of these is managed by the Board and Investment Manager.

The assets of the Company are largely in the form of readily tradeable securities which can be sold on-market if necessary.

**4 Fair value measurements**

The Company measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets and financial liabilities at fair value through profit or loss (FVTPL)
- Long-term equity investments

**(a) Fair value hierarchy**

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy (consistent with the hierarchy applied to financial assets and financial liabilities):

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2), and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

*(i) Recognised fair value measurements*

The following table presents the Company's assets and liabilities measured and recognised at fair value at 30 June 2017.

	<b>Level 1 \$</b>	<b>Level 2 \$</b>	<b>Level 3 \$</b>	<b>Total \$</b>
<b>At 30 June 2017</b>

<b>Total financial assets</b>	<u>97,963,307</u>	-	-	<u>97,963,307</u>

Included within Level 1 of the hierarchy are listed investments. The fair values of these financial assets and liabilities have been based on the closing quoted last prices at the end of the reporting year, excluding transaction costs.

There were no transfers between levels for recurring fair value measurements during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting year.

**4 Fair value measurements (continued)**

**(a) Fair value hierarchy (continued)**

(ii) *Disclosed fair values*

For all financial instruments other than those measured at fair value their carrying value approximates fair value.

The carrying amounts of trade and other receivables and payables are assumed to approximate their fair values due to their short-term nature.

**5 Critical accounting estimates and judgements**

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

**Key judgements**

(i) Deferred tax asset

Deferred tax asset has been recognised on unused tax losses on the basis that the Company will generate future taxable profits to utilise the tax losses.

**6 Segment information**

The Company has only one reportable segment. The Company operates predominantly in Australia and in one industry being the securities industry, deriving revenue from dividend income, interest income and from the sale of its trading portfolio.

**7 Income tax expense/(benefit)**

**(a) Numerical reconciliation of income tax expense/(benefit) to prima facie tax payable**

(Loss)/ Profit from continuing operations before income tax expense	(1,161,096)	464,537

The Company's DRP was in operation for the payment of this dividend.

**(f) Capital risk management**

The Company's policy is to maintain a strong capital base so as to maintain investor and market confidence. The overall strategy remains unchanged.

To achieve this, the Board of Directors monitor the monthly NTA results, investment performance and share price movements.

The Board is focused on maximising returns to shareholders with capital management a key objective of the Company. The Company is not subject to any externally imposed capital requirements.

**20 Contingencies**

The Company had no contingent liabilities at 30 June 2017.

**21 Related party transactions**

**(a) Transactions with other related parties**

All transactions with related entities were made on normal commercial terms and conditions.

Anthony Patterson and John Murray are both Directors of Perennial Value Management Limited ("Perennial Value"), the entity appointed to manage the investment portfolio of the Company. Perennial Value, in its capacity as manager, earned management fees amounting to \$1,138,922 (inclusive of GST but net of reduced input tax credit) for the year (2016: \$1,133,198).

The management fee is calculated at 0.98% p.a. (plus GST) of the first \$250 million of the net asset value of the portfolio and 0.8%p.a. thereafter.

As at 30 June 2017, the balance payable to the manager was \$95,600 (2016: \$114,499) (including GST).

In addition, Perennial Value is to be paid, annually in arrears, a performance fee of 15% (exclusive of GST) of the portfolio's outperformance of the benchmark over the performance calculation period, calculated using the following:

$$\text{Performance Fee} = ((CV - PV) - (BI \times PV)) \times 0.15$$

Where

CV is the net asset value of the portfolio before all taxes and current performance fee accrual calculated on the last business day of the relevant performance calculation period;

PV is the net asset value of the portfolio before all taxes and current performance fee accrual calculated on the last business day of the immediately preceding performance calculation period, or in the case of the first performance calculation period, the net asset value of the portfolio before all taxes at listing; and

BI is the increase in the benchmark over the performance calculation period expressed as percentage. The benchmark is the S&P/ASX 300 Accumulation Index

If the amount calculated using the formula above is a negative number, no performance fee is payable in respect of that performance calculation period. Where the amount calculated is a negative, it is to be carried forward to the following performance calculation period(s) until it has been recouped in full against future performance fees payable.

There was no performance fee earned by the Manager during the year ended 30 June 2017 (2016: \$nil).

No Director has received or become entitled to receive a benefit (other than those detailed above) by reason of a contract made by the Company or a related Company with the Director or with a firm of which he is a member or with a Company in which he has substantial financial interest.

**Wealth Defender Equities Limited  
Directors' Declaration  
For the year ended 30 June 2017**

In accordance with a resolution of the Directors of Wealth Defender Equities Limited, the Directors of the Company declare that:

- (a) the financial statements and notes, as set out on pages 14 to 35, are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Australian Accounting Standards, which as stated in accounting policy Note 2 to the financial statements, constitutes compliance with International Financial Reporting Standards (IFRS); and
  - (ii) giving a true and fair view of the Company's financial position as at 30 June 2017 and of its performance for the year ended on that date, and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- (c) The Directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the Board of Directors.

**Independent Auditor's Report  
to the Members of the Wealth Defender Equities Limited  
ABN 15 602 517 528**

**REPORT ON THE FINANCIAL REPORT**

We have audited the accompanying financial report of Wealth Defender Equities Limited (the "Company"), which comprises the statement of financial position as at 30 June 2017, the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the Directors' declaration.

**Opinion**

In our opinion

- a) the accompanying financial report of Wealth Defender Equities Limited, is in accordance with the *Corporations Act 2001*, including:
  - i. giving a true and fair view of the Company's financial position as at 30 June 2017 and of its financial performance for the year then ended; and
  - ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.
- b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the *Auditor's Responsibility* section of our report. We are independent of the Company in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. We have communicated the key audit matters to the Audit Committee, but they are not comprehensive reflection of all matters that were identified by our audit and that were discussed with the Committee. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<i>Key audit matter</i>	<i>How our audit addressed the matter</i>
<p><b><i>Existence, Completeness and Valuation of Financial Assets</i></b>  <b><i>Refer to Note 10: Financial Assets</i></b></p>	
<p>We focused our audit effort on the existence, completeness and valuation of the Company's financial assets as they are its largest asset and represent the most significant driver of the Company's net tangible assets and profits.</p> <p>The quantum of investments held inherently makes financial assets a key audit matter, in addition however, there may be judgements involved in determining the fair value of investments.</p> <p>In relation to investments, there can be a risk that these are not owned by the Company.</p> <p>We therefore identified the valuation, existence and completeness of investments as an area of focus.</p>	<p>Our procedures included, amongst others:</p> <ul style="list-style-type: none"> <li>▪ We obtained an understanding of the investment management process and controls;</li> <li>▪ We reviewed the independent audit report on internal controls (ASAE 3402 Assurance Reports on Controls at a Service Organisation) for the period 1 July 2016 to 30 June 2017;</li> <li>▪ We agreed the investment holdings to a confirmation obtained directly from the Custodian;</li> <li>▪ We assessed the Company's valuation of individual investment holding to independent sources of information to determine an acceptable range of valuations of securities held at 30 June 2017, and compared this to the valuations recorded by the Company;</li> <li>▪ We evaluated the appropriateness of the accounting treatment of revaluations of financial assets for current/deferred tax and realised/unrealised gains or losses;</li> <li>▪ We assessed the adequacy of disclosures in the financial statements.</li> </ul>

***Accuracy and Completeness of Management and Performance Fees***

***Refer to Note 21: Related party transactions and Remuneration Report***

We focused our audit effort on the accuracy and completeness of management and performance fees as they are significant expenses of the Company and their calculation may require adjustments for events in accordance with the Investment Management Agreement between the Company and the Investment Manager.

In addition to their quantum, as these transactions are made with related parties, there are additional inherent risks associated with these transactions, including the potential for these transactions to be made on terms and conditions more favourable than if they had been with an independent third-party.

We therefore identified the accuracy and completeness of management and performance fees as an area of focus.

Our procedures included, amongst others:

- Making enquiries with the Investment Manager and the Directors with respect to any significant events during the period and associated adjustments made as a result, in addition to having reviewed ASX announcements;
- In order to verify the Company's calculation, we recalculated management and performance fees in accordance with our understanding of the Investment Management Agreement;
- Considered the treatment of events that may be significant to the calculation of management and performance fees;
- Tested key inputs used in the calculation of the management and performance fees and performed a reasonableness test;
- Considered the appropriateness of the current methodology in relation to calculation of the management and performance fees;
- We also assessed the adequacy of disclosures made in the financial statements in relation to these related party transactions.

**Other Information**

The Directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Directors' Responsibility for the Financial Report**

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## **Auditor's Responsibilities for the Audit of the Financial Report**

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to

the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **REPORT ON THE REMUNERATION REPORT**

### **Opinion on the Remuneration Report**

We have audited the Remuneration Report included in pages 9 to 11 of the Directors' report for the year ended 30 June 2017. In our opinion, the Remuneration Report of Wealth Defender Equities Limited for the year ended 30 June 2017, complies with section 300A of the *Corporations Act 2001*.

### **Responsibilities**

The Directors of Wealth Defender Equities Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
